

WE ARE LOOKING FOR NEW COLLEAGUES FOR POSITIONS:
SPECIALIST EE - SW EMBEDDED

Location: Praha

Ref.: 2019-021

In almost every car today, there is at least some EDAG. We are an expert in complete vehicle development and optimization of automotive manufacturing systems. With more than 8,000 employees, at nearly 60 locations in 19 countries, we offer our customers a range of development services primarily, but not just in the automotive industry. EDAG is a company whose goal is to excite technology and enthusiasm among employees and customers.

What should you have:

- Bachelor or Master Degree of Electrical Engineering or Computer Science (or comparable degree)
- Good knowledge in C/C++ programming language
- Good English or German skills

Your duties:

- ECU software development according to the V-model and AUTOSAR architecture
- Usage of high computing platforms embedded into car architecture with Time-Sensitive Networking
- Description of software with the help of UML
- Definition and development of software unit and integration tests
- Usage of vehicle bus systems (CAN, FlexRay, LIN) and diagnostic services (UDS)
- Quality assurance (code review, reporting)

Area of development:

- Advanced Driver Assistance Systems
- Autonomous Car (Level 4)
- Electrification
- Safety and Security
- Infotainment and Connectivity

What you can look forward to:

- very interesting salary
- up to 30 days holiday
- 13th and 14th salary
- employment contract of indefinite duration
- possibility to realize your thoughts and ideas

Did we raise your interest? Then do not hesitate to contact us! We look forward to your CV!
