

WE ARE LOOKING FOR NEW COLLEAGUES FOR POSITIONS:

## **SPECIALIST EE - AUTOSAR**

**Location:** Praha (Viktora Huga 359/6)

**Ref.:** 2019-018

In almost every car today, there is at least some EDAG. We are an expert in complete vehicle development and optimization of automotive manufacturing systems. With more than 8,000 employees, at nearly 60 locations in 19 countries, we offer our customers a range of development services primarily, but not just in the automotive industry. EDAG is a company whose goal is to excite technology and enthusiasm among employees and customers.

### **What should you have:**

- Bachelor or Master Degree of Electrical Engineering or Computer Science (or comparable degree)
- Knowledge in C programming language, AUTOSAR, ASPICE
- English or German skills

### **Your duties:**

- Automotive software development in the area of complete ECU development
- Software component development (SWC)
- Basic software module integration and configuration (BSW)
- ECU system setup
- Driver development (CDD)
- Setting up the run time environment or virtual function bus (COM, RTE)
- Implement diagnostic services (UDS)
- Define, execute and document software qualification, integration and unit tests

### **Area of development:**

- Advanced Driver Assistance Systems
- Autonomous Car (Level 4)
- Electrification
- Safety and Security
- Infotainment and Connectivity

### **What you can look forward to:**

- very interesting salary, 13th and 14th salary
- up to 30 days holiday
- employment contract of indefinite duration

Did we raise your interest? Then do not hesitate to contact us! We look forward to your CV!
